

Circle21 — 10 November 2025

Date	10 November 2025
Format	Video call
CF3	Simon Damborg, President
Circle21	Nemanja Ivanovic

WHY WE MET

Circle21 runs registration and scoring for CF3 events. CF3 wants its own platform and Circle21's to work together so members never have to enter the same information twice.

WHAT WE TALKED ABOUT

Live scoring at functional fitness events and its role in keeping spectators engaged. Professionalising the judging pool at high-level events, with CF3 concentrating on training and certification. Technical integration between CF3's platform and Circle21 to avoid duplicate registration and data entry. How a national leaderboard for CF3 athletes could be produced from event results.

WHAT IT MEANS FOR MEMBERS

Register once, and your results feed your CF3 profile and a national leaderboard.

WHAT HAPPENS NEXT

CF3 is defining the handful of integration points it needs and focusing its own development on technical-official training and certification. The collaboration is at an exploratory, technical stage.
