

CF3 Board: record of decisions

Meeting of 8 February 2026. Virtual.

Decided

The 2026 National Championships are set for 15–16 August 2026, with setup on 14 August. Nationals stay decentralized, at a minimum of three locations (East, Central and West).

Host venue requirements were supported, with enforcement to be added. CF3 assigns one board or committee liaison to each host and may withdraw sanctioning from a host that misses its milestones.

Athletes qualify for Nationals by more than one route: invitations from established qualifying competitions across Canada, made by CF3 age division, and a June 2026 online last-chance qualifier. Criteria are looser in 2026 and will be enforced more strictly in 2027.

Judge training at qualifying events will be offered in 2026 and required in 2027.

Quebec's provincial federation keeps its own qualification pathway. CF3 does not override its athlete selection.

Operational decisions move to committees. The board meets quarterly; committees and project leads meet monthly at published times.

CF3 will enable donation receipts, pursue corporate sponsorship, and budget for one board representative to attend major international events.

A simple, non-punitive athlete conduct reporting system will be developed, and CF3 will publish guidance on medical therapies consistent with WADA principles.

A record of decisions taken. The minutes of this meeting are held for the board.
